

Workshop on Recent Trends in Data Sciences

About: The Department of Computer Science and Engineering in association with **Capgemini, Bangalore** is conducting a Workshop on Recent Trends in Data Sciences. This workshop is designed to provide fundamental knowledge of Big Data and its solutions using Hadoop framework. Hadoop is used for extracting useful information from raw data, providing analysis and transformation on big data sets. It is the most recent technology in the market with rising popularity.

Details:

- Date: 4th and 5th March
- Duration: 2 days
- Time: 10:00 AM
- Fee: 750/- per participant
- Venue: Computer Science Lab
- Refreshments will be provided to the participants
- National level certificate from Technovision and Capgemini, Bangalore will be awarded to the participants.

Course Content:

- Installation, setting and configuration of Hadoop tool.
- Hadoop Review.
- HDFS-Hadoop Distribution File System.
- Map Reduce.
- Data Analytics using Hive.
- Overview of live Big-Data Projects

Prerequisites:

No prerequisites required.

Rules:

- It is imperative that you maintain the discipline in the college.
- A valid identity card must be brought by the participants.
- Participants should be present in all sessions. Failing this, no certificate will be awarded to the participant.
